

4 February 1981

MEMORANDUM FOR THE RECORD

FROM:

[redacted]
Deputy Director of Data Processing

SUBJECT: OER/ODP Relationship

REFERENCE: Memo from D/OER to D/ODP, dtd. 23 Jan. 81,
same subject

1. I met with [redacted] DD/OER, on 29 January to discuss the most unfortunate circumstances surrounding the referenced memorandum. I told [redacted] that the rotational program involving our two offices would have to be terminated if he could not guarantee that OER personnel would refrain from further recruitment of ODP personnel. The carefully worked effort, involving [redacted] myself, to provide a qualified ODP computer specialist on rotation had been undermined by the OER recruitment of another ODP computer specialist to fill that position permanently. [redacted] agreed that we had every right to be mad and gave me his assurance that no further recruitment would take place. We also agreed that the two of us would act as the senior contacts for our respective offices on all personnel matters.

2. [redacted] also said that he would review all memoranda involving ODP and OER matters before being sent out. I suggested that this would help our future relationships and avoid a recurrence of an incident similar to the one involving the OER response to the report of the Information Handling Task Force.

O/D/ODP/
